PROFILE SUMMARY

Cybersecurity and IT risk professional with **3+ years of experience** in cyber policy research, regulatory framework design, SIEM-based threat operations, and financial sector cyber resilience. Currently serving as **Young Professional (Cyber Security)** at the **Department of Economic Affairs, Ministry of Finance, GoI**, with direct contributions to India's **Financial Sector Cyber Security Strategy (FSCSS)** and active engagement in the 29th FSDC. Certified Ethical Hacker (**CEH V13**) with demonstrated competence in threat intelligence analysis, vulnerability management, GRC frameworks (NIST CSF, ISO 27001, EU DORA), and digital public infrastructure security. **GATE CSE 2024 & UGC NET 2024** qualified.

WORK EXPERIENCE

Department of Economic Affairs, Ministry of Finance, GoI

New Delhi, India

Young Professional – Cyber Security

July 2024 – Present

- Led policy research, drafting, and benchmarking for India's proposed **Financial Sector Cyber Security Strategy (FSCSS)**, pursuant to 29th FSDC recommendations; reviewed global frameworks including **NIST CSF, ISO/IEC 27001, EU DORA, Basel Committee guidance, UK APP Fraud framework**, and G20-FSB recommendations.
- Actively engaged in **FSCSS Inter-Ministerial Group (IMG)** meetings and Sub-Group consultations engaging **RBI, SEBI, IRDAI, PFRDA, IFSCA, MeitY, CERT-In, NCIIPC, NIC, and MHA**; contributed to regulatory harmonisation, CII protection, and cyber incident reporting frameworks.
- Supported **cybersecurity operations across 23 DEA divisions** via SIEM monitoring, incident response coordination, threat assessment, and vulnerability management; collaborated with NIC and CERT-In to analyse threat intelligence, resulting in a **95%** reduction in unauthorised access incidents across departmental ICT infrastructure.
- Built a **vulnerability remediation dashboard** for real-time tracking of security controls and compliance posture across government ICT systems.

National Council of Science Museums (NCSM), Ministry of Culture, GoI

Kolkata, India

M.Tech Trainee Fellow – Work Integrated Learning Program

January 2024 – July 2024

- Managed IT infrastructure and Linux-based systems administration across NCSM's multi-site facilities; improved system uptime and proactive monitoring workflows for a large public-sector institution.
- Supported network infrastructure management and applied IT security practices in a real-world government institutional environment.

AuthBridge Research Services Pvt. Ltd.

Gurugram, India

Associate IT Infrastructure Engineer

June 2022 – April 2023

- Architected enterprise security controls including two-factor authentication, firewall rule optimisation, and SIEM-based threat monitoring on Linux infrastructure, achieving a 95% reduction in unauthorised access incidents (from 12+ to <5/month).
- Evaluated and deployed SIEM platforms and endpoint detection solutions; produced standardised compatibility and performance baseline documentation for risk assessment.
- Implemented automated SIEM alerting and incident classification workflows, reducing mean time to resolution (MTTR) by 40% across network and server security incidents.

EDUCATION

University of Allahabad – JK Institute of Applied Physics & Technology

Allahabad, India

Master of Science (M.Sc.) – Computer Science | CGPA: 7.81

July 2021 – June 2023

Chandigarh University – University Institute of Computing

Chandigarh, India

Bachelor of Science (B.Sc.) – Computer Science | CGPA: 8.34

July 2018 – June 2021

CERTIFICATIONS & ACADEMIC ACHIEVEMENTS

- Certified Ethical Hacker (CEH V13)** – EC-Council | Penetration Testing, Vulnerability Assessment, Incident Response, Offensive Security (07/2025 – 06/2026)
- Google Cybersecurity Professional Certificate** – SIEM Tools, Network Architecture, Cloud Security (01/2024 – 02/2024)
- AI for All** – MeitY & Intel | AI/ML applications and responsible AI (2025)
- GATE CSE-2024** – Qualified, Graduate Aptitude Test in Engineering – Computer Science (Valid: 03/2024 – 03/2027)
- UGC NET-2024 (December)** – Qualified, National Eligibility Test – Computer Science & Applications (Lifetime)

TECHNICAL SKILLS

- Cybersecurity Operations:** Threat Intelligence Analysis, SIEM Monitoring (SentinelOne, Splunk, OSSIM), Vulnerability Assessment, Penetration Testing (Burp Suite, Nmap, Nessus/OpenVAS, Wireshark, Metasploit), Incident Response, Forensic Analysis
- Policy, GRC & Regulatory Frameworks:** Cybersecurity Governance, Risk & Compliance (GRC); NIST CSF; ISO/IEC 27001; EU DORA; MeitY/CERT-In Advisories; Regulatory Harmonisation; CII Protection; Audit Coordination
- Financial Sector & Digital Infrastructure:** Financial Sector Cyber Risk, Digital Public Infrastructure (UPI, Aadhaar, DBT), BFSI Compliance, FSDC Policy Process, Cloud Security Governance, AI/ML Risk Assessment
- Infrastructure & Systems:** Linux Administration (RHEL, Ubuntu, Debian), Network Security, Server Hardening, Endpoint Protection, Backup & Disaster Recovery
- Programming & Data Analysis:** Python, Java, C/C++, SQL, Bash; Advanced Excel (dashboarding, data visualisation); Django, MongoDB, JavaScript, HTML/CSS, Node.js
- Emerging Technologies:** AI/ML-assisted research & policy drafting, Prompt Engineering, OpenAI, Anthropic Claude, Google Gemini

KEY PROJECTS

- National Cybersecurity Strategy for Financial Sector (FSCSS)** – Contributed to drafting India’s comprehensive BFSI cyber resilience framework with multi-layer security architecture, regulatory compliance automation, and dedicated short / medium / long-term goal mapping; aligned with 9-Point ToR of the 29th FSDC Meeting. *[Ministry of Finance, GoI, In Progress]*
- Vulnerability Remediation Dashboard** – Designed and built a real-time dashboard for tracking vulnerability remediation status, threat alerts, and ICT security controls across 23 DEA divisions. *[Ministry of Finance, GoI]*
- ACO Research Security Protocol** – Automated threat detection & response framework with security orchestration workflows, advanced analytics, and SIEM integration for enterprise environments. *[Research Project]*
